# Archivio Serrandina

All Archivio Serrandina (100 – 120 cm width) components are manufactured in steel and epoxy coated in the following finishes: black, ivory and grey.

Archivio can be accessoried by adjustable shelves for lateral filing, shelf dividers, roll out frames with filing folders, which allows filing across the frame or along the frame or both.

This particular kind of storage units presents PVC tambour doors with balanced and synchronous movement to top and bottom. Accessories for units are adjustable shelves for lateral fittings, shelf dividers, roll out frames with filing folders, which allow easy and quick access to documents.

Faram can introduce modifications for the improvement of the product without prior notice. Finishes to be referred to Faram dedicated information.
